

A New Tourist Spot in Chai Wan

My newly-designed tourist spot is Chai Wan Tower. It is located in Siu Sai Wan. The tower has two levels for visitors.

Restaurants and cafes are on the first level. People can enjoy their meals in the tower. On the second level, there is a viewing platform. People can enjoy the sea view on the platform.

In order to attract more visitors, there is no entrance fee! People can visit the tower for free. Moreover, there are different music and dance performances on the platform. We can enjoy both the view and the performances at the same time.

We will create videos about the tower like how to get around and things to do in the tower. You can watch the videos on Instagram and Youtube.

“Come to the tower and explore Chai Wan!”
