

## **My Best Friend**

My best friend is Andy. We study in the same class in the same school. We have known each other for three years.

He has dark and lustrous hair. His eyes are shining and big. He is small and cute with a round face. Wearing a pair of glasses, he looks like a gentleman. However, on the contrary, he has a different character.

He is outgoing, sporty, confident and curious. Apparently, he is an extrovert. He likes running and skipping. Both of us love skipping and we joined the skipping race last year. He performed better than me. When we have running races, he wins every time. He does exercise with me every weekend and helps me keep fit and strong.

He likes exciting activities such as playing on the roller coaster. I wish to go to Ocean Park with him this summer. We enjoy the time being together.

As Andy has an elder brother, he usually takes care of his elder brother. Therefore, he has a caring character as well. He is a good helper of our teachers. He can read my mind and he helps me with homework. Sometimes he goes to the library with me and we study together. He is indeed a good companion.

We never argue with each other. I am fortunate to have him as my best friend. I hope our friendship will grow stronger as days go by.
