

# My unforgettable Trip

By 6C Leung Lok Sang, Francis

I went to Busan in Korea with my family during the summer holiday. It was an unforgettable trip. We had so much fun there!

We spent four days in Busan. On the first day, we went to a temple in the morning. The temple that we visited was very traditional! It was built in the mountain that made it more mysterious. Moreover, the roof of the temple was so special. It had many animal sculptures! I enjoyed walking around the temple and experiencing different cultures.

The next day, we went to a famous Korean restaurant in the afternoon. The food there was very delicious. We tried Kimchi and some seafood. I loved the Kimchi most, because it was spicy. I love spicy things! I also ordered a seafood stew. It was the first time I had seafood in Korea. It was so mouth-watering. I also tried some raw seafood such as sauce marinated crabs. However, I didn't like the raw food.

When we were back to the hotel that night, I felt very sick. I had a stomachache and vomited a lot of food. Therefore, my mum and dad took me to the nearest hospital. After seeing the doctor, I knew the reason why I got sick. The doctor told me that there were some parasites in the raw seafood. The doctor advised me not to eat raw seafood again and I should take the medicine on time.

After two days, I felt much better. Finally, I got well and continued my trip! What an unforgettable trip!
